

Application Instructions / Technical Data Sheet

Caircon - Special Cleaner

Caircon - Special Cleaner is a powerful liquid special cleaner for intensive cleaning of alkali-resistant surfaces and for substrate preparation prior to subsequent coating. The product is a ready-to-use cleaning agent (RTU).

Product Application

1. Start by removing coarse dirt with a broom.
2. Before using the cleaning agent, test colour fastness and compatibility on an inconspicuous area.
3. Thoroughly wet the substrate to be cleaned with our cleaner.
4. Depending on the surface, use a suitable scrubber, hand brush or cloth to work the material.
5. Allow the product to **act for** approximately 5 minutes, then loosen stubborn soiling with a scrubber or brush.
- 6. Then rinse the surface with water and clean it thoroughly with a mop or cloth.**
7. If soiling remains, treat it again with the cleaner and work on it separately with a brush.

Shelf Life

Approx. 24 months when unopened containers are properly stored at +5°C to +25°C. Protect from frost.

Proper Disposal

Disposal of product residues: Dispose of in accordance with official regulations. Transfer to an approved waste disposal company. Contaminated packaging: Non-contaminated packaging emptied of residues may be sent for recycling.
