

## Tool Set for Floor Coating

### Product Description

This **tool set for floor coating** is available in **different** variants and was developed for applying **epoxy resin, floor coatings** and **self-leveling** compounds. Depending on the chosen variant, the set contains different tools for even material distribution, controlled working and safe walking on fresh coatings.

#### 1. Pin Squeegee

The pin squeegee is ideal for **smoothing and distributing large floor** areas. Due to the wide working surface, the coating material can be applied in a controlled manner and leveled evenly. Particularly **suitable for epoxy resin, fillers and self-leveling materials**.

#### Specifications:

- **Material:** Wooden handle, carbon steel
- **Working width:** 56 cm
- **Teeth width:** 3 mm
- **Teeth height:** 5 mm

#### 2. Telescopic Handle

The **aluminium telescopic** handle enables comfortable and ergonomic working. The length can be individually adjusted and supports a back-friendly posture during floor coating.

#### Specifications:

- **Material:** Aluminium and plastic
- **Length:** 85–140 cm
- **Inner diameter:** 20.9 mm
- **Outer diameter:** 25.3 mm

#### 3. Mixer (included depending on the set variant)

The mixer is suitable for thorough mixing of epoxy resin, paints, varnishes, adhesives, concrete and similar materials. The robust steel construction is rust-resistant and easy to clean. The hexagonal shaft ensures a secure grip in the drill chuck and prevents slipping during the mixing process.

#### Specifications:

- **Material:** High-quality steel
- **Length:** 40 cm
- **Mixing head diameter:** 80 mm

- **Clamping shaft:** 8 mm

#### 4. Spiked Shoes

The spiked shoes allow safe walking on freshly coated surfaces without leaving marks. Evenly spaced steel nails ensure stability and additionally support the deaeration of the coating during processing.

#### Specifications:

- **Material:** Plastic with steel nails
- **Size:** approx. 30.0 × 13.5 cm

#### 5. Spiked Roller (included depending on the set variant)

Smooth 50 cm large areas in long, even strokes with the squeegee scraper.

6. Apply even pressure to achieve a level surface.
7. Clean the tool regularly to obtain clean results.

#### Safety Instructions

- Wear suitable protective gloves, safety goggles and respiratory protection
- Only work in well-ventilated rooms
- Keep children and pets away from the work area
- Clean tools thoroughly after use
- Only enter coated surfaces after they have fully cured
